One To Go

Of the ten applicants for Bristol twp. Police Chief, nine have been interviewed by the Bristol twp. commissioners, and failed to qualify, it was learned today.

The tenth candidate is to be interviewed this week-end. The commissioners must name a chief by July 15, the date when the resignation of Acting Chief Ernest Nuskey will take effect.

Martial Law Lifted

BERLIN — Russian Military Commandant Maj. Gen. P. T. Dibrova announced today the lifting of martial law that was declared in East Berlin during the bloody June 17 anti-Communist riots. The order is effective at midnight. Nothing was said about whether martial law will continue to be imposed on other parts of eastern Germany.

Portugal to Vote

LISBON — Prime Minister Antonio de Oliveira Salazar announced today that a general election will be held in Portugal in November.

No Hint from Reds

LONDON — Soviet propaganda organs gave no hint today of the course toward which Russia policy may be turning. Instead they continued to dwell almost exclusively on the downfall of Deputy Premier Lavrenti Beria.

Thugs Beat Five

PHILADELPHIA — Five men were beaten by thugs on Philadelphia streets early today. Two bandits pinned the arms of James E. Donaghay, 40, behind him and struck him in the face several times before swiping his wallet which contained eight dollars. Another pair pistol-whipped insurance collector Howard Griswells but fled empty-handed when Griswells fought off the attackers. Four men grabbed James Hamm, 40, and swiped \$56 after beating him in the face. William Billig, 55, was stabbed in the neck, shoulder and side after he refused to give 25 cents to a stranger. Galveston Gregory, 31, was beaten in the head and robbed of \$27.

Nab Hit-Run Driver

PHILADELPHIA — A Moorestown, N. J., man was in police custody today in connection with the hit-run injury of a Southwest Philadelphia man. The suspect, Alfred Beaver, 49, was apprehended as he passed over the Delaware River Bridge between Philadelphia and Camden, N. J., and booked on charges of reckless driving, hit and run and assault and battery. Police said Thomas Hanna, 58, was struck while crossing a downtown street.

Dump Fire Smoke Disperses Meeting Of Commissioners

A meeting of the Bristol township commissioners in the Emilie police station was interrupted last night by complaints of angered residents of the township and the borough about the heavy black smoke issuing from a Bristol township dump.

Action is being taken today to end the smoke fumes from the dump, Commissioner Eugene Stutz said this morning.

The smoke was caused by burning trash that today will be buried and covered over, Stutz said. Grass seed will be planted in the covering soil, according to the commissioners.

In Bristol, fourth and sixth ward residents have complained of the fumes for the past three nights. The smoldering trash was in a swamp on the dump site, Stutz said. He said Health Officer Charles Simpson investigated and found the smoke was no health menace.

At a meeting of the Bristol twp. Commissioners this week, Stutz announced the appointment of Harry Cobet as dump supervisor. Dumping spots will be designated on the grounds, and fees of 50 cents to \$1.50 charged. Stutz said that instead of burning refuse, it will be covered over whenever possible. He estimated the improvement cost at \$1,000.

Escaped Convict Sought in Area; Wife Fears Life

Prisoner Called 'Anti-Social' By State Authorities

DOYLESTOWN, July 11 — A widespread manhunt was underway today in Lower Bucks county for a Bristol man who "walked away" from a county prison road gang engaged in repairing a bridge in Warrington township at 12:30 p. m. yesterday.

Police throughout this area have been alerted to hunt for Joseph Smith, 32, of 6 Green lane, Bristol, who fled into the nearby woods while engaged in bridge operations with four other prisoners and a guard.

Smith had been sentenced for violation of parole following a conviction for assault and battery on his wife, Julia. He was scheduled to be released this December.

The prisoner appeared in court a year ago after his wife told authorities she was fearful of her life, stating her husband had threatened to kill her. Mrs. Smith appeared in court at the time wearing a skull-cap, revealing her husband had shaved off all the hair on her head. He told the court he wanted to lock her within their home so she couldn't talk to others.

Sent to the State Hospital at Norristown for examination, Smith was released with the report he was normal but anti-social.

Police today are covering the streets in Bristol and the immediate vicinity and are also watching the homes of several friends in Willow Grove. A guard has been established at the Smith residence as a safeguard for his wife.

Rev. Boswell Will Deliver Sermon At Union Service

The speaker at the union service for Bristol churches tomorrow evening will be the Rev. George E. Boswell, rector of St. James Episcopal Church. The service is scheduled for 7:30 p. m. in Bristol Methodist edifice.

Bristol Methodist Church

Ralph E. Proud, Jr., minister; Sunday: Church school, 9:45; James S. Douglass, supt.; morning worship, 11 (nursery during hour); sermon "Getting the Most Out of Life".

Monday, eight p. m., Commission on Missions meeting; Wednesday, 6:45; Men's Fellowship, on church lawn, recreation and refreshments.

First Baptist Church

William E. Hakes, minister; Sunday: 9:45 a. m., Bible School; Leonard Dyer, general supt.; 11: morning worship, message by pastor for "Jesus the Servant" (John 13); vocal duet by Delores Rea and Doris Plowman; 7:15 p. m., pre-prayer group; 7:30, evening gospel service, message by pastor, "The Great Tribulation".

Wednesday: 7:30 p. m., Prayer and Praise service, the most important hour in the life of any Christian; Saturday: 7:30 p. m. Young people will go swimming at Hiway pool; meet at church.

Bristol Christian Church

Wood and Walnut streets, the Rev. Anthony A. Marinacci, pastor; Italian service, pastor's sermon "Contrast: Rejecting and Receiving Christ" (John 1:11, 12), nine a. m.; Sunday School (English), lesson: "The Entrance of Sin" (Gen. 3:1-

Senate To Act On Speed Bill

HARRISBURG, July 11 — (INS) — The Senate next week will act on a bill to permit 60-mile per hour speed limits on some highways outside cities where traffic conditions permit faster travel.

Present speed limit on all state highways is 50 m. p. h.

Other traffic bills to be given final consideration in the Senate next week stiffen the penalties for passing a school bus loading or unloading children, including permanent revocation of a driver's license for injuring a child.

Pennel Bank Branch Sought

LANGHORNE, July 11 — Thomas E. Coe, Jr., president of the Peoples National Bank and Trust Company, announces that application has been made to the U. S. Comptroller of the Currency to establish a branch bank in Pennel.

"We are expanding our services," Coe said, "in keeping with the growth and progress of the area. The Pennel branch will enable us to provide better service for industry and business houses in the Pennel area. At the same time it will alleviate the considerable congestion caused by increased business at our Langhorne institution."

State Planning Board To Study Bucks Co. Area

A research project to develop economical planning standards for new residential community design is being undertaken by the State Planning Board in Bucks, Delaware and Montgomery counties. William H. Shelton, chairman of the Southeastern Pennsylvania Regional Planning Commission, announced today.

Two professional planning technicians in the employ of the State Planning Board have been assigned to work on the project in this area. David D. Longmaid, executive secretary of the tri-county commission, will supervise the project in cooperation with Francis A. Pitkin, director of the State Planning Board.

Chief objective of the study will be to devise methods of planning new residential developments which will result in economies in the provision of municipal services. "With rapid residential growth placing unprecedented demands upon townships in the tri-county area for all types of public services, including schools, sewers, streets and highways, police and fire protection, trash and garbage collection, water supply, etc. it is important that planning techniques be developed which will minimize the cost of providing these services," Longmaid said.

The study will take about a year to complete and will develop recommendations to guide local municipalities and county planning commissions in achieving economies in public services for new developments, Mr. Longmaid indicated.

Senior planner appointed to the study project is Adolph D. Oppenheim, who holds a Master's degree in city planning from the Massachusetts Institute of Technology and who has had wide experience in planning new residential communities. He will be assisted by Bernard Tatcher, planning technician.

Monday, eight p. m., Commission on Missions meeting; Wednesday, 6:45; Men's Fellowship, on church lawn, recreation and refreshments.

Directions Mixed, Stork Arrives Half-Hour Later

A Southampton mother whose emergency trip to Valley Forge Army Hospital early yesterday morning took two hours when she became confused in directions to the hospital announced the birth of an eight-pound daughter.

Mrs. Betty Dohany, of 2nd Street place, whose husband is in the Army in Europe, this morning called Mrs. C. J. Russell, wife of the Trevo Heights Rescue Squad chief, to thank the ambulance squad for their service.

Mrs. Dohany made a "reservation" for the trip in April, setting the date at July 12. The baby was born two days early. The Rescue Squad took Mrs. Dohany from her home at 3:30 a. m. yesterday.

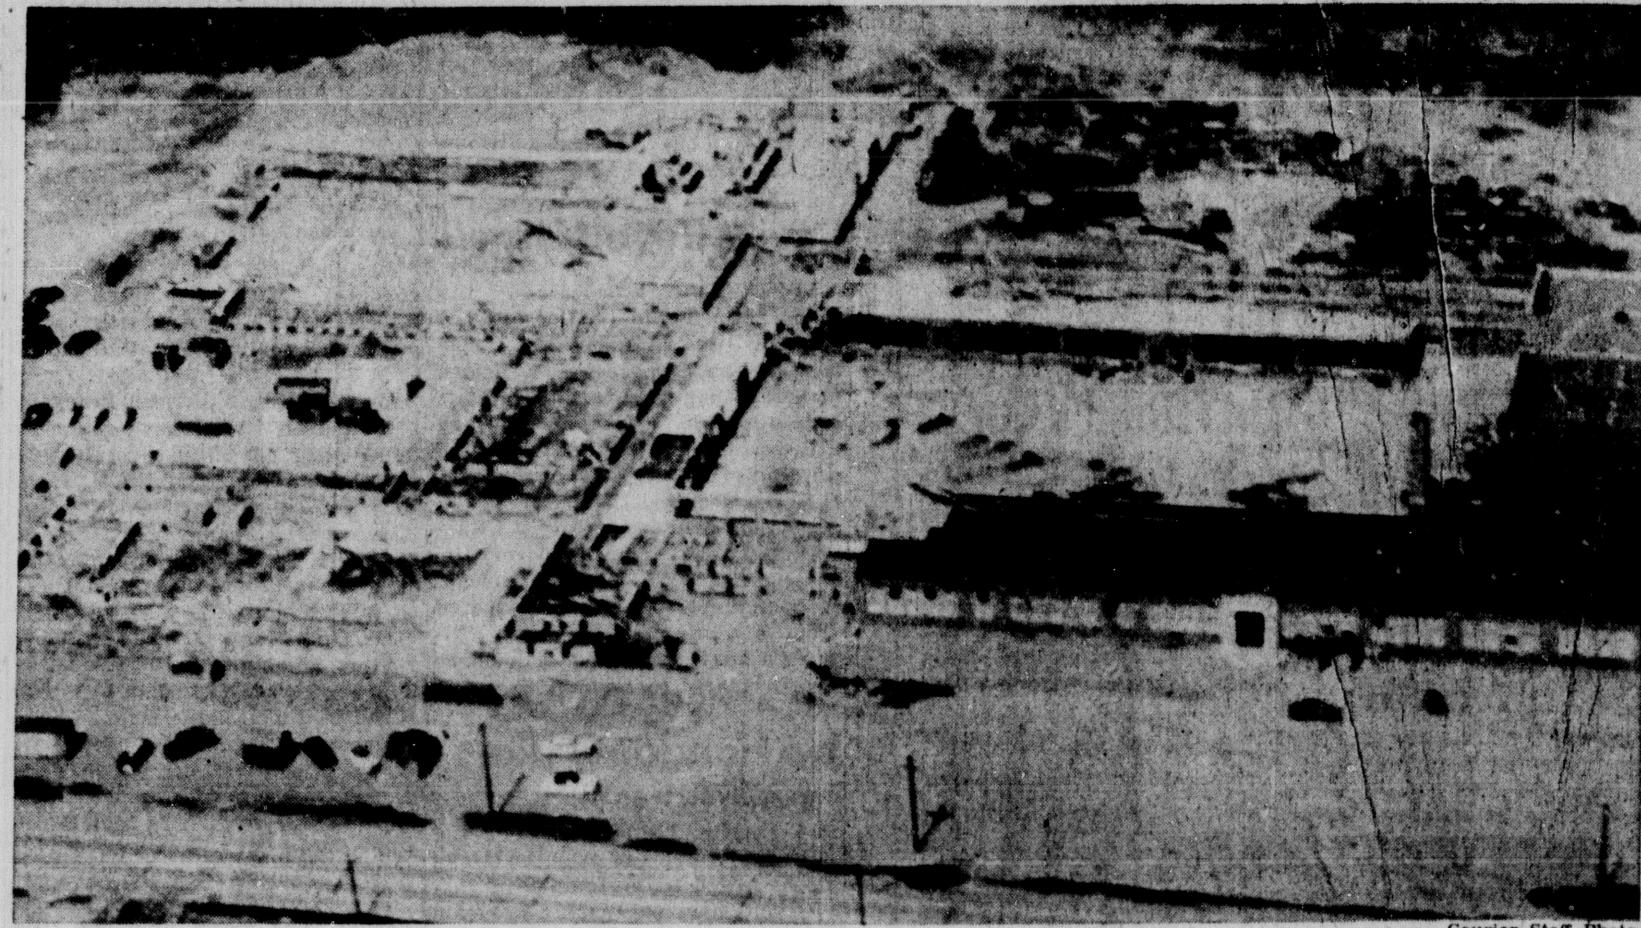

Because they got lost on the way, they didn't arrive at the Army hospital until 5:45 a. m. A half-hour later, the baby was born. The Trevo Heights Squad is continuing to take "reservations" for maternity trips.

Other transportation calls by the Squad yesterday were: Mrs. Cora Sterars, of Brookside drive, Feasterville, home from Episcopal Hospital, Philadelphia; Patrick Casey, Huntingdon Valley, to Abington Hospital, and Ernest D. Martin, of Bristol Road, Newington, to Pennsylvania Hospital, Philadelphia.

Harold Stoekler, 26, was taken to Nazareth Hospital with injuries received when his car struck a pole at Oak and Brownsburg roads, Trevo Heights.

Fired Cops Appeal Hearings Delayed By New Testimony

Nearly \$10 Million in School Building Now Underway in Lower Bucks Area

AIRPLANE VIEW SHOWING PROGRESS OF WORK ON NEW DELHAAS HIGH SCHOOL

Courier Staff Photo

By Elizabeth Taylor
Courier Staff Reporter

The \$2,100,000 addition to Delhaas Junior and Senior High School, Rogers road, Bristol Township, is just one part of the \$9,690,769 worth of building now going on in Lower Bucks County.

A library, cafeteria, band, and chorus rooms will be a part of the addition which was designed by Albert E. Mickelwright, of Mickelwright and Mountford, Trenton, New Jersey.

Schools are presently being constructed in Bensalem, Neshaminy, Newtown, Pennsylvania, and Bristol Township.

This addition will contain 26 rooms including the four just completed. The \$2,100,000 figure includes both construction and equipment costs. An auditorium to seat 750 people will have a

30 by 80 ft. stage. One thousand people, although it will hold 2,500, will be accommodated in the triple-sectioned gymnasium.

A library, cafeteria, band, and chorus rooms will be a part of the addition which was designed by Albert E. Mickelwright, of Mickelwright and Mountford, Trenton, New Jersey.

The school building, one of the largest one-story structures in the country, is scheduled for completion in early 1954. Brick will be used to complete the addition, so that it will match that portion of the school now in use.

Ceilings of these new rooms

will be sloped, and of acoustic tile. Asphalt tile is being put on the floors, and venetian blinds will adorn the windows of the new rooms.

A home economics suite of four rooms, a four-room industrial suite, and three oversized business rooms will be used daily. The board plans to purchase business machines like those which are used in office work, so the commercial students can apply the things they learn.

Some 1,760 students are ex-

pected to attend Delhaas next year, with a breakdown as follows: seventh grade, 431;

eighth grade, 385; ninth grade,

340; tenth grade, 254; 11th grade, 216; and 12th grade, 134.

The number of faculty mem-

bers has almost doubled in

size compared to last year.

There were 42 teachers for the 1952-53 school year; and there

will be 75 for the years 1953-54.

Ample parking space will be

provided for both faculty and

students.

This new addition is being

financed by bonds through the

Bristol Twp. School District

Authority, according to Albert C. Smith, Secretary of the Authority and Miller regional su-

perintendent of Bristol Twp.

VFW Demands U. S. Stamp Out Reds

PHILADELPHIA, July 11—(INS)

The state Veterans of Foreign Wars brought its 34th annual encampment to a close in Philadelphia today with demands for vigorous action in stamping out Communism and protests against any cuts in Veterans Administration funds.

The encampment was featured by a colorful parade through the center of the city Friday applauded by some 30,000 watchers. The parade was followed in the evening by the "million dollar pageant of drums" competition by drum and bugle corps from various posts in the state.

\$60,000 NET ON FETE

ABINGTON, July 11 — Mrs. Daniel S. Whitteman, chairman of the 1953 June Fete for the benefit of the Abington Memorial Hospital, announces \$60,000 was realized on the event. She expressed thanks to all who helped make the affair such as success.

OPEN SUNDAYS

Penn Center Drive For Funds Begins Monday, Levittown

A three-fold purpose is behind the William Penn Center's door-to-door campaign which begins Monday in Levittown.

The volunteer workers will interpret the center's work and projects, enlist volunteer aides as members of the center, and solicit funds to maintain the program of projects and renovate the center.

Five thousand dollars, the goal set by officials, is the help which is needed financially. Kent R. Larrabee, executive secretary, said when workers explain the purposes of the drive and what the money will be used for, people will be willing to cooperate.

This center is used by two dozen Levittown organizations for activities. Helpers which are needed include: art teachers to work with children in the Junior Fellowship Arts program; graduates of Incident Control courses, to practice what they have learned in community problems and controlling prejudices in the area; and graduates of Units for One World to do work in the area.

Homes, which can be used as a collection center of clothing for overseas relief, are needed; and so are workers to mend and pack these clothes. Volunteers are being sought to perform general office duties, renovate the center, or to instruct crafts, painting, and folk dancing in the Fine Arts department.

Levittown Neighborhood Committees are being established to interest others in the William Penn Center projects, and to build "bridges" of fellowship between people. The center is also desirous of child-care mothers, who are willing to aid in a program of assisting working mothers.

An inter-faith experiment, "Everyman's Community Service", needs more helpers, too. Speakers, who will talk at organization meetings, are asked to register with a bureau now being established for that purpose.

News Briefs

Continued from Page One

\$232,010 School Bid

HARRISBURG — The State Public School Building Authority announced today that an apparent low bid of \$232,010 has been received for an addition to an elementary school in Lower Southampton School District.

Navy Flyers Killed

OIL CITY — Two Navy fliers were killed in the crash of a twin-engine Beechcraft training plane early today near here. Identification of the men was withheld pending notification of next of kin. State Police from nearby Franklin, who reported the accident, said one body was still strapped in its seat and the other was lying within 15 feet of the wreckage. The plane was discovered in a heavily wooded section by two men on a fishing expedition.

Soviet Revolt Urged

LONDON — A broadcast by the "Liberation Radio" called on the Russian Army today to "rise against the Soviet regime before Malenkov has time to establish his absolute rule." The unidentified广播者 commented on the purging of Deputy Premier Lavrenti Beria, declared that "Now is the opportune moment to liberate Russia from the oppression of the Communist state." The broadcast was thought to have originated from a station in Germany. Although heavily jammed, it could be heard clearly in London.

No Handout---like

AMARILLO, Tex. — Governors and representatives of seven drought-stricken southwestern states called today for a firm government meat purchasing program following a conference with President Eisenhower to plan relief for the sun-parched area. The President, who flew to Amarillo from Washington yesterday, promised speedy government aid to the farmers but said aid must be based on need rather than a "handout."

Collapse Kills Three

SCARSDALE, N. Y. — Weary searchers, combing debris, today recovered the body of the third man killed in the collapse of a four-story building under construction here. Ten other workmen were injured when a section of the skeleton-like building gave way with a thunderous roar. Building inspectors said the collapse may have been caused by a weakness in the foundation. County police launched an investigation of the disaster.

Bull Derails 'Chief'

ARDMORE, OKLA. — A big bull which refused to yield the right of way to the speeding Santa Fe Texas Chief was blamed today for derailing the streamliner near Ardmore and sending 10 persons to the hospital. No one aboard the Chicago-bound train of four diesel units and 15 cars was injured seriously in the derailment, although many were shaken up, but the 1,800-pound bull, a hereford, was killed.

Mr. William H. H. Fine, 257 Radcliffe street, is expecting her son, Franklin Fine, Chicago, Ill., to visit her for a few days.

Mrs. Joseph Burtonwood, Beaver street, will pass the next two weeks with her son-in-law and daughter, Mr. and Mrs. Louis V. Townsend, Jr., South Reno.

Mr. and Mrs. William B. Nichols, Bath road, were visited by Mr. and Mrs. Raymond Rupp, Baltimore, Md., Wednesday through Friday.

The Nichols have as guests for four days Mr. and Mrs. Chester Dunkly, Bethel, Conn.

The following are on two weeks motor trip to Miami, Fla.: Mrs. Anna Torano, Monroe st.; Mrs. Edward Moffo, Penn st.; Mrs. Frank Schwendeman, Croydon.

Mrs. J. Hefferman, of 109 Winder

drive, Winder Village, was taken to Nazareth Hospital, Philadelphia, yesterday by Bucks County Rescue Squad.

TAKEN TO HOSPITAL

Mrs. J. Hefferman, of 109 Winder

drive, Winder Village, was taken to Nazareth Hospital, Philadelphia,

yesterday by Bucks County Rescue

Squad.

Polio Mobilization

ELMIRA, N. Y. — Forces were marshalled today for the biggest anti-polio mass inoculation ever attempted as the toll of the disease in two stricken New York counties climbed to 57. Some 35,000 children between the ages of six months and nine years are slated to receive shots of the blood derivative.

Levittown Neighborhood Com-

mmittees are being established to

interest others in the William Penn

Center projects, and to build

"bridges" of fellowship between

people. The center is also desirous

of child-care mothers, who are

willing to aid in a program of as-

sisting working mothers.

An inter-faith experiment, "Every-

man's Community Service", needs

more helpers, too. Speakers, who

will talk at organization meet-

ings, are asked to register with a

bureau now being established

for that purpose.

Rosin Listed For 'Meet The Artist'

NEW HOPE, July 11—The fifth speaker at New Hope Workshops "Meet the Artists" series, scheduled at Ney Plaza, is Harry Rosin.

Rosin, who is represented by work in Tahiti and Guadalupe in the French West Indies, also has a stone statue called "Quaker and Puritan" in Fairmount Park, Philadelphia.

Rosin has his sculpture in the collections of the Academy of Fine Arts, Philadelphia, as well as in London, Paris and Israel.

Today's Quiet Moment

Rev. Robert J. Thomson
Pastor of
Pilgrim Presbyterian Church
of
Edgely and Levittown

"God so loved the world, that He gave His only begotten Son, that whosoever believeth in Him should not perish, but have everlasting life." — John 3:16.

Our verse for today is one of the best loved passages of the Bible and it brings with it a tremendously compelling message for our day. That message is a message of love. The greatest love story that the world has ever known. The story of God's love for you. God loves you so much that He was willing to sacrifice His only Son that you might have life and have it more abundantly. How it must grieve the heart of our Creator that so many of His children go their way without a thought of Him. He has given all that He had for us and yet we often coldly pass Him by.

Notice also what is implied in the verse: That those who are unmindful of the sacrifice of Christ are to perish. God's word is clear, there can be no doubt but that the rejection of Christ as Saviour can only lead to disaster for us, here and in the life to come. On the other hand, those who are faithful in their love for Him are to be rewarded with the gift of eternal life. The stakes for which we play the game of life are high. Can we afford to ignore God's plea to accept His gift in Jesus Christ? Certainly we cannot. The Bible plainly tells us that the wages of sin and disbelief is death and an eternity spent in oblivion, but for the faithful the gift of God is eternal life. Life is short and eternity is a long, long time. What will your answer be? Your church and your pastor stand ready to help you find the answer for your own life!

Mr. and Mrs. Louise Nicoll and daughter, Mary Lou, and son, Robert, of 269 Jackson st., spent last week July 6-12 at Atlantic City, N. J.

Mr. and Mrs. Wilkinson Bracken, 246 Madison street, have returned home after spending several days vacation at Asbury Park, N. J.

The card parties which were sponsored by Camp 89, P. O. of A. and held the 4th Monday of each month, have been discontinued until further notice.

Mr. and Mrs. John L. Vogel, Bristol, announce the birth of a daughter, Deborah Lee in Nazareth Hospital, Phila. June 20th.

Guests of Mr. and Mrs. Louis Cordisco, 54 Airacobra st., on Wednesday were Mrs. Francis May and daughters Barbara and Carol, Phila., and Mr. and Mrs. Harry Hibbs, Cornwall Heights.

Mrs. Louise Thorne Luce, of Bristol, has been cited on the dean's honor list for scholastic achievement during the second semester of the past academic year at Bucknell University, Lewisburg.

Daughter of Mr. and Mrs. Lester D. Thorne, 101 Jefferson Avenue, Mrs. Luce was graduated from Bucknell in June with the degree of bachelor of science in commerce and finance.

Cadet William A. White, son of Mr. and Mrs. William K. White, 219 Jackson st., recently returned to Camp Buckner, West Point, N. Y., after

**3Ms Downed
By Kaiser, 12-4,
On Memorial Field**

Kaiser Metal collected 11 hits last evening as it topped 3Ms' 12-4, in a Bristol Softball League game on Memorial field. The loss shoved 3Ms' deeper in the cellar of the loop.

Of the eleven safe blows, seven were for extra bases. Frank Rich hit for the circuit with two on in the fifth and came through with a double in the final frame. Jimmy Lewis rapped out a triple in the sixth and after walking in the seventh, rapped out a double in the ninth.

Vince DiMucci was the winning hurler with the defeat going to Vito Marseglia. Marseglia was replaced by Chuck Hinkie in the seventh.

Giants Top Giants, 7-4, To Increase Lead on First Place

Bucks County goes on the air Monday night, July 20, from Philadelphia.

The Eagles increased their lead on first place in the Bristol Little League as they triumphed over the Giants, 7-4, last evening on Rohr and Haas field. The Eagles now lead by one and one-half games.

Tommy Dougherty, the winning hurler, was nicked for 11 hits but was saved by fine fielding, his mates contributing two double plays. Pete Lewinsky and Bill Sweeney did the mound work for the Giants.

Pete Climo led the batters of the game with three for three. Glen McCoy and Mike Klein had two hits each for the Giants while Jack McGinley had a pair of hits for the Eagles.

Foreign Cars To Vie At Langhorne Event

LANGHORNE, July 11 — The third annual Auto Racing Fair at Langhorne Speedway will be featured this Aug. 2 with an unusual competitive event — foreign and American stock car racing, for the first time at this track.

NASCAR, the largest racing association in the nation, has sanctioned the stock event as the Eastern Regional Championship with the winner automatically qualifying for the national championship in Florida this November.

The mighty midgets, as usual, will have their winner recognized as the National Champion. This will be the only midget championship listed for the Bucks County oval.

The competition that will feature the foreign against American made stocks has been listed as a Trophy Race, however, in each of the divisions the feature winners will all be presented with championship trophies.

All of the activity will take place on the afternoon of August 2. Qualifying heats will only be staged in the sprint event and these heats will be staged previous to the running of the main. In the other three events the drivers will be awarded starting positions according to performance registered during the current campaign.

Hearing on Cops

Continued from Page One

when they were charged by the Civil Service Commission of having a bribe.

First witness yesterday was Chapin. He testified that on Jan. 13 he saw Ramsey and a woman in front of the Croydon Diner. "Officer Shaw and I were sitting in the police car," Chapin said. "Ramsey came up to my side of the car and asked, 'Are you fellows going to keep off my neck? How about giving me back that piece of paper? Aren't you the fellows who stopped me down the road at the cemetery?"

"I told Ramsey that I didn't know what he was talking about or what he was referring to when he mentioned the piece of paper. Ramsey drove away."

Patrolman Charles Shaw, West Bristol, who was in the car with Chapin, testified that Ramsey and a Mrs. Hampton came to the Diner, and that he had nothing to add to Officer Chapin's version of the conversation.

Next witness was Oscar A. Booz, 33 Woodside Avenue, Edgely, Bristol Twp. Commissioner and former chairman of the police committee.

He said: "I was riding in a police car with Officers Hibbs and Neal Feb. 14 when we came across a one-car collision at Route 13 and Beaver Dam road. We later saw a man who turned out to be Ramsey walking along the road. We caught up to Ramsey who said, 'That is my car.' The car was in the name of his wife, Agatha. Ramsey said that the lights on another car blinded him and he ran off the road into a field knocking down a sign and hitting a tree. Hibbs said, 'I would say that Ramsey had been drinking something of an alcoholic nature.'

"I would not be so bold as to say he was drinking," said Booz.

Township Commissioner Booz testified that after talking with former Chief of Police, Joseph O. Seader, the chief came to Booz's home with a complaint sheet and original copies of a traffic violation which was a reckless driving charge. By his request, the charges were dropped. Booz said, "There were no witnesses and I took the advice of Chief Seader, and the charges were dropped."

Ramsey, an employee of Minnesota Mining & Manufacturing Co., testified he was taking his passenger home from work Jan. 13. She was working on the late shift and she had no way of getting home, so he took her home.

Ramsey said, "We always stopped in the diner for a cup of coffee or something to eat. The officers are wrong about us coming out of the Diner, we were just ready to go in when I saw the police car. I was confused at that point about the identification of the officers in the car. The only one I can be sure of is Bentley Chapin. I didn't know officers Ragnoli or Ellison prior to Jan. 13."

Concerning his accident, he testified he had one drink at the 3M

party in the fire house.

"I was driving my car for my wife," Ramsey said. After the accident, the officers that night did not charge me with any motor code violation. I never got a summons or a warrant of arrest and I had no reason to contact anyone because I didn't think I was going to be arrested."

Ramsey said he was told later by former Chief Seader that "the blood ticket" was six or seven days after the accident. "I was offered no reward for testifying for or against Officers Ragnoli and Ellison in the Civil Service Commission hearing," Ramsey said.

Fuliam and Lawrence A. Monroe both agreed they would like to make a full investigation concerning the civilian passenger in the police patrol car.

**Kaiser Breaks Tie;
Tops Philco, 4-3**

Harry Lewis broke a 3-3 tie with a home run in the sixth inning to give Kaiser Metal a 4-3 win over Philco Corp., in an Industrial Softball League game on the Hunter-Wilson field. The defeat put Philco in a deadlock with Rohm and Haas for the league leadership.

Accardi paced the Kaisermen at the plate with three for three. Monachello was the winning moundman with Pleva the loser.

HARRIMAN VS. PENNDEL

The Harriman A. C. team will play the Penndel Aces tomorrow afternoon on Memorial baseball field. Game will start at 2 o'clock. Ken Alston will pitch for the Harriman nine.

Always swim at designated beaches. Don't take the chance of falling into a drop-off you can't see.

7. Always under-estimate your swimming ability. Don't try to demonstrate your prowess by swimming to distant rafts or to sand bars that usually disappear when you reach them.

8. Never let children out of your sight when near the water. Teach them to respect the water and to be aware of the dangers that it holds.

9. If your boat capsizes, stay with it as long as it floats or until help arrives.

10. In casting from a boat in which there are other people, remember that a fish hook is sharp and if caught in the eye or face may cause serious injury.

Eagles Top Giants, 7-4, To Increase Lead on First Place

Radio to Salute Bucks Co. on Air

Bucks County goes on the air Monday night, July 20, from Philadelphia.

The Eagles increased their lead on first place in the Bristol Little League as they triumphed over the Giants, 7-4, last evening on Rohm and Haas field. The Eagles now lead by one and one-half games.

Tommy Dougherty, the winning hurler, was nicked for 11 hits but was saved by fine fielding, his mates contributing two double-plays. Pete Lewinsky and Bill Sweeney did the mound work for the Giants.

Pete Cimino led the batters of the game with three for three. Glen McCoy and Mike Klein had two hits each for the Giants while Jack McGinley had a pair of hits for the Eagles.

THREE Greeks had some words for it, and one of them was "classic." This applies to the Grecian, Provincial and Colonial home fashions that have returned to popularity.

Greek-inspired furniture is simple in line, but elegant in feeling. Fruitwoods and rosewood are often inlaid with dark ebony or light woods. Brass drawer pulls and hardware abound. Tables and chests have marble or slate tops.

The Acanthus Leaf

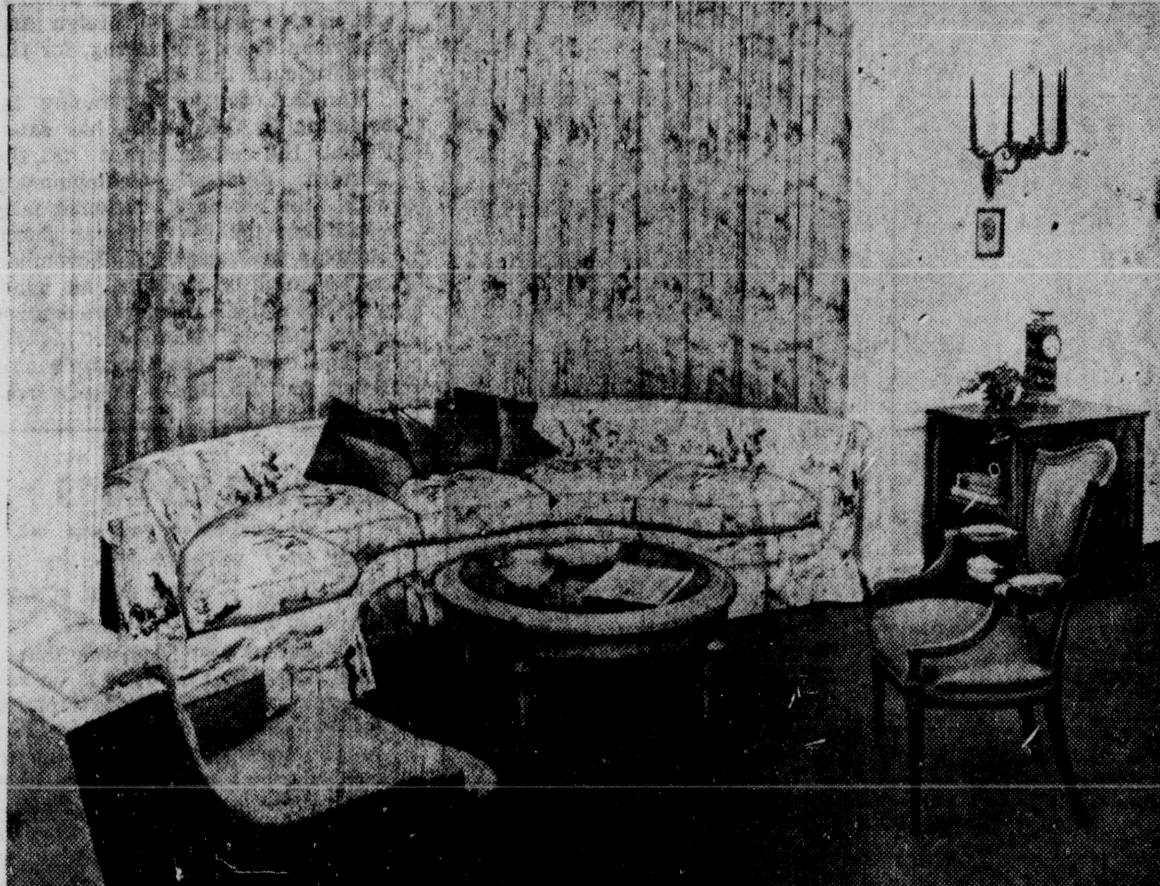

Frequently used Greek motifs include reeded columns, grillwork doors, the lyre, the shield, the rosette and the acanthus leaf. In accessories, such as statuary and sculptures, black, gold and terra cotta accents are frequently seen. Floor coverings are simple and very often monotone in color.

Many new fabrics have a Grecian air about them. There's a hand-printed glazed chintz that depicts a chariot race. Another design combines a Grecian cameo-like motif with festoons of leaves in pale blue and gold on white chintz. Still a third new pattern pictures garden statuary and a fountain drawn with a brushstroke technique in pink and moss on cotton.

The Colonial Canopy

The canopy bed of Colonial days is another popular revival, and it's a pretty and feminine one. The graceful canopy makes the bed the central point of interest in the decorative scheme of a bedroom.

A canopy calls for a fabric design that's not too overpowering. The graceful chintz floral used for the canopy shown on today's page is a good choice. Bouquets of jonquils and tulips laced with pine, maple or oak furnishings.

A CURVING BOW WINDOW is the focal point of this Greek revival room. The window is curtained with sheer batiste, patterned with racing chariots. The same design, in chintz, covers the sofa. J. H. Thorp photo

ribbons provide the design. It's used for canopy, bedspread, draperies and loveseat. For contrast, dust ruffle, cornice and toss pillows are done in white and flower shades that match the chintz.

Provincial Returns

Provincial fashions influenced by the French, Italian, Pennsylvania Dutch and early American are more popular than ever. They're uncluttered in line and have a casual charm that fits in with 1953 American living.

Fabrics that go with this revival offer stylized geometric and flower motifs in earthy colors such as red, brown, green and blue, which go well with pine, maple or oak furnishings.

HERE'S A PRIM, proper and pretty look about this bedroom. The evenly spread bed has a Provincial New England geometric pattern. J. H. Thorp photo

ACCESSORIES IN THE GRECIAN MOOD are shown atop a chest that has gadroon detail. Note black and gilt lamp and ornaments. J. H. Thorp photo

Delaware Bridge Sets New Records

A report to the Delaware River Port Authority by Frank L. Suplee, Jr., bridge superintendent, showed that traffic over the Delaware River Bridge in the first six months of the year and during June set new records for those periods.

There was a 6.8 percent increase the first half of this year over the same span for 1952.

A drop of 4.39 per cent in high-speed rail transit traffic showed the decrease for June from 725,142 passengers last year to 693,274 this year.

Manual Shows How to Build Atomic Shelter

The nation's householders were told by the Federal Civil Defense Administration today that home shelters are low-cost insurance for their families.

In an 86-page manual—complete with "build-it-yourself" drawings and specifications—the agency urged, "If you live within about 10 miles of the downtown area of a major city located in a target area, you should build a shelter for your family."

FCDA this week is beginning national distribution of a limited quantity of the new manual, "Home Shelters for Family Protection in an Atomic Attack," fifth in a series on structural protection against atomic blast.

In announcing the publication, Governor Val Peterson, FCDA Administrator, said:

"The release of this manual, the result of several years of scientific research culminating in the recent Yucca Flat tests, is a milestone in civil defense. For the first time, American families may have tested information on how to construct simple, low-cost shelters."

"I know Americans will think seriously about home shelters, calculating the shelter cost against protection for their families—not only from atomic attack, but from such natural disasters as the tornadoes which have plagued the nation in recent weeks."

Four types of shelters, all tested under atomic blast, are described in the booklet, covered-trench and basement-exit types for out-of-doors, and lean-to-and corner-room types for basements.

"A house with a basement which extends five feet or more below the ground level has a certain amount of inherent protection," the manual says. "This protection is not enough to make a basement a wholly satisfactory shelter area without improvement, but is enough to make it

the basement safer than any other part of the house provided there is an outside exit."

Cheapest of the shelters to build is the basement lean-to. The FCDA estimates that it can be built for about \$10 per occupant (\$40 minimum) if wooden materials are used or about \$16 per occupant (\$65 for family of 4) if the shelter is built with reinforced concrete.

A more comfortable indoor shelter is the corner-room type, which the agency estimates would cost about \$24 per occupant to build.

The outdoor types of shelter are generally safer. Least expensive is the covered-trench, a box or tunnel type structure covered with three feet of earth. The cost is estimated at about \$30 per occupant. Most expensive is the basement-exit shelter, but it has advantages in security and comfort, that none of the others has. Its construction may require the services of an experienced contractor and skilled workmen. Costs would vary with the dimensions, building conditions and the section of the country.

The drawings, for both amateur and professional builders, are accompanied by lists of materials and tools needed to construct the shelters.

"To provide shelter protection for himself and his family," says the manual, "a householder need not know everything about the complex series of events which occur when an atomic bomb explodes." But so he may understand against his family must be protected against the manual discusses atomic blast in simple terms.

"In a few seconds after an atomic bomb explodes over a city," FCDA stated, "many houses will be demolished or severely damaged by blast. Unless proper precautions are taken, the occupants in the house may be exposed to dangerous amounts of radiation. It is even more likely that the occupants may be crushed as the house collapses."

Where local conditions make suggested types of shelter inapplicable, FCDA recommends that advice on the most feasible type of construction be obtained from local civil defense engineering service.

The FCDA has previously pub-

lished these technical manuals on protective structures:

TM 5-1, Shelter from Atomic Attack in Existing Buildings, Part I, Method for Determining Shelter Needs and Shelter Areas (February 1952).

TM 5-2, Shelter from Atomic Attack in Existing Buildings, Part II, Improvement of Shelter Areas (May 1952).

TM 5-3, Interim Guide for the Design of Buildings Exposed to Atomic Blast (June 1952).

TM 5-4, Windowless Structures—A Study in Blast-Resistant Design (July 1952).

The new manual (TM 5-5) is being distributed in limited quantities to civil defense organizations in cities of 40,000 and more. It also may be purchased from Superintendent of Documents, Government Printing Office, Washington 25, D. C. for 20 cents.

Chief danger in an atomic blast, the booklet warns, is blast, not radiation. At seven-eights of a mile, it says, the wall of a well-built brick house will give adequate radiation protection from a bomb two and one-half times as powerful as those dropped on Nagasaki and Hiroshima. But the blast would damage the house beyond repair.

Governor Peterson said that because funds for shelter testing were limited, FCDA has not been able to test every kind of shelter for every geographical location. He said FCDA is well aware that in some areas of the nation a home basement is the exception. If excavation for an underground, outdoor shelter is impractical, or cannot be afforded by the householder, he urged that the immediate premises should be surveyed—in keeping with previously published instructions—to determine the safest shelter area either in or outside the home. To meet the cost of construction, it was suggested that close neighbors may consider two-family shelters on a share-the-expense basis.

Delaware Bridge Sets New Records

A report to the Delaware River Port Authority by Frank L. Suplee, Jr., bridge superintendent, showed that traffic over the Delaware River Bridge in the first six months of year.

the year and during June set new records for those periods.

There was a 6.8 percent increase in the first half of this year over the same span for 1952.

A drop of 4.39 per cent in high-speed rail transit traffic showed the decrease for June from 725,142 passengers last year to 693,274 this year.

Homey, Comfortable Ranch Type Dwelling Gives Dad Extra Room for Den

THE ROCKVILLE has a homey, comfortable look. It should because it was designed for family living. A covered patio at the entrance is a decorative feature that the family and guests will enjoy in summer. The home is planned for families earning \$8,000 or more a year.

By JOAN O'SULLIVAN

HERE'S a home to please all members of the family.

Dad's delight will be the extra room. It's a den, a place where he can retreat to escape chattering teenagers or the weekly visit of the bridge club.

Mother will go for the kitchen arrangement, particularly the snack bar that separates kitchen and breakfast nook. She'll find it comes in handy when it's time to serve meals or clear dishes away.

For Summer Barbecues

As for the younger members of the family, they'll like the covered terrace—an ideal place to entertain the gang at parties and summer barbecues.

It can be reached from garage, den or living room.

These are just a few of the interesting features included in plans for this two-story home, the Rockville. The architect took full advantage of the layout and has provided spacious activity areas.

Picture Window Wall

The large living room, for example, has a pretty picture window that takes up most of one wall. Two corner windows at the opposite end of the room provide a pleasant view of the terrace. The room has a fireplace, too.

The cozy dining room is a particularly attractive mealtime setting, thanks to two big windows that look out on front and side lawns.

A Private Bath

Downstairs, there's a small lavatory and there are two bathrooms on the second floor. The largest bedroom has a private bath, and a hall bath serves the other two rooms.

or that they may be struck by falling debris and missiles."

Rapid sequence photographs of the houses exposed to the A-bomb tests at Yucca Flat, Nev., March 17, 1953, illustrate the need of shelters described in the manual.

Chief danger in an atomic blast, the booklet warns, is blast, not radiation. At seven-eights of a mile, it says, the wall of a well-built brick house will give adequate radiation protection from a bomb two and one-half times as powerful as those dropped on Nagasaki and Hiroshima. But the blast would damage the house beyond repair.

Governor Peterson said that because funds for shelter testing were limited, FCDA has not been able to test every kind of shelter for every geographical location. He said FCDA is well aware that in some areas of the nation a home basement is the exception. If excavation for an underground, outdoor shelter is impractical, or cannot be afforded by the householder, he urged that the immediate premises should be surveyed—in keeping with previously published instructions—to determine the safest shelter area either in or outside the home. To meet the cost of construction, it was suggested that close neighbors may consider two-family shelters on a share-the-expense basis.

"In a few seconds after an atomic bomb explodes over a city," FCDA stated, "many houses will be demolished or severely damaged by blast. Unless proper precautions are taken, the occupants in the house may be exposed to dangerous amounts of radiation. It is even more likely that the occupants may be crushed as the house collapses."

Where local conditions make suggested types of shelter inapplicable, FCDA recommends that advice on the most feasible type of construction be obtained from local civil defense engineering service.

Sleeping quarters in this home are master-bedroom size. The two largest rooms have generous closet space.

The garage is planned to house two cars. This part of the plan can be easily altered, however, for a one-car family.

Homey Charm

The exterior of the Rockville has a homey look about it. It's a family house. A covered patio adds charm to the entrance.

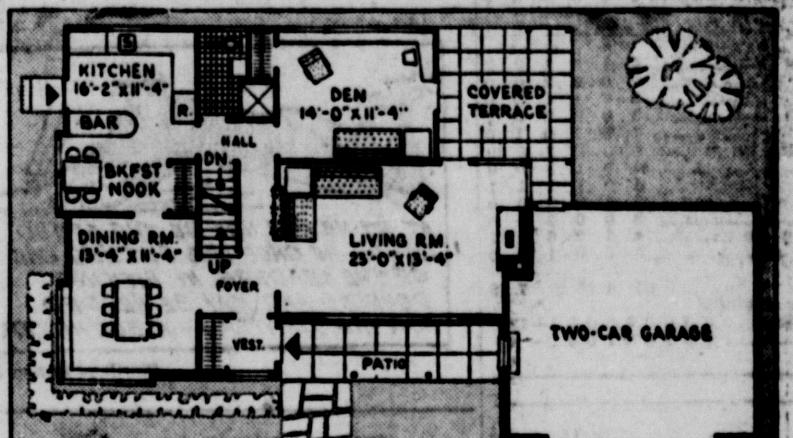

This is a house planned for families with an annual income of \$8,000 or more a year.

The overall width of the house is 62 feet. The first floor plan comprises 1,108 square feet.

The Rockville is one of 36

plans featured in a new book-

let. If you are interested in obtaining a copy of the book-

THERE ARE SEVERAL SPECIAL FEATURES on the first floor of this home. One of them is an extra room designed to be a den for Dad.

1 tablespoon soy sauce
1 teaspoon dry mustard
1 package frozen (or 1 small can pineapple chunks)

1 large (or 2 small) green peppers, cut in strips
2 large tomatoes, peeled and cut in wedges.

Bring to boil. Mix 1½ tablespoons cornstarch with enough water to make a smooth paste, then add this to the sauce. Stir until thickened. Use on shrimp, beef, pork or anything which calls for a Chinese touch.

With a little practice and an educated palate, you can soon make these sauces your own specialties.

Charcoal Broiled Chicken
For three hours or more before cooking, soak the split broilers in this marinade:
One part wine vinegar
Two parts olive oil
One chopped onion
One clove garlic, chopped
A handful of chopped fresh tarragon, thyme and parsley—or a pinch each of the dried herbs.
Salt and pepper to taste.

Broil over gentle charcoal fire about 40 minutes, the first 20 minutes or so with the cut side toward the fire, the last 20 minutes with frequent basting (use the marinade) and turning to brown the skin side.

SLEEPING QUARTERS are on the second floor. All three bedrooms are master size. One bedroom has a private bath and two wardrobes.

Architectural Plan Service, Inc.

SECOND FLOOR PLAN

'Auto' Club Opens Office in Edgely

The Automobile Club of Philadelphia-AAA has opened a new branch office in the rapidly-growing lower Bucks county section. Known as its Lower Bucks County Office, it is located on Route 13 just south of Edgely road in Edgely.

Prominent businessmen and local officials participated in a ribbon cutting ceremony July 10th at the office with officials of the Automobile Club. The ribbon was cut by Mrs. Margaret Johnson, Fairless Hills, manager of the new office, assisted by two directors and officers of the club, Welsey A. Gilman, secretary, and Robert E. Garrett, treasurer.

RECIPES
Chinese Sweet and Sour Sauce

Mix together in a large kettle:
1 cup red wine (or other mild vinegar)
1 cup water
1 cup honey (or brown sugar)
3 tablespoons catsup

PICNIC MEAT LOAF

1½ pounds ground beef

½ pound ground pork

¼ cup finely chopped onion

2 teaspoons salt

½ teaspoon pepper

½ teaspoon sage

1 tablespoon Worcestershire sauce

2 eggs

1 cup tomato juice

4 slices bread

Combine meat with onion and seasonings. Beat eggs and add tomato juice. Cube bread and soak in the liquid mixture; beat well.

Add to meat and mix lightly. Pack into a 5x8 inch meat loaf pan and bake at 350 degrees F. for 1½ hours.

AN EDITORIAL WITH PICTURES

The Great Unsolved Traffic Problem---What Shall We Do With The Cars

Shown above are the two huge parking lots of the Kaiser Metal Products Company in Bristol. The picture to the left is the cut at Beaver Dam road and New Route 13, the one on the right between Farragut avenue and Radcliffe street.

Literally thousands of cars pour over the highways in the morning and jam their way into a number of parking lots in this area—and in the afternoons fight their way out again.

A generation ago nothing of this sort was heard of. When Harriman Ship came to what is now the Harriman section of Bristol, back in the First World War, no one even dreamed of providing parking lots. About the same time, down river at Hog Island, acres of land were laid out for trolley-car terminals—but nothing for automobile parking.

In a dozen ways, this vast fleet of individually owned and operated vehicles has raised new and unsolved problems.

An incredibly large sum of cash and credit is tied up in these cars.

No known road system will accommodate the rivers of traffic they will produce in a few more years, if the increase continues.

Billions of dollars are being spent, scores of millions of them within fifty miles of Bristol, trying to release the traffic jam. But the flood of cars grows faster than the highway system.

Bristol itself has passed the saturation point for motor traffic. There are certain hours each day when the danger and delay of trying to drive from point to point in the Borough hardly seems worth the trouble. What's the answer?

No one has come up with a simple remedy. Much time and a deal of money will have to go into the solution. Twenty years ago the traffic problem was something which bothered the big cities—places like New York and Philadelphia and Chicago.

When big numbers of families began moving out of the cities into the suburbs, and when industries set about "decentralizing" so as to get out of the crowded zones, everyone sighed with relief and thought the puzzle was answered.

But traffic congestion has spread to the smaller communities, and even into the rural areas—within recent years, one of the most alarming features of motor casualties has been the sensational jump in pedestrian deaths on farm-area roads.

Whatever the final answer may be, you can be certain that it will involve three elements—first, a "tougher" attitude towards the question of whether everyone has a right to use the roads as he chooses; second, much bigger and more expensive road systems than have yet been blue-printed; third, long-range planning for locating future growth along lines never before considered.

SATURDAY, JULY 11, 1953

BIBLE THOUGHT FOR TODAY

Be ye holy for I am holy.—I Pe. 1:16.

Christ taught His Disciples to aim at perfection. Some fell far short, but Peter after touching the depth did really become a saint. We will not hit a mark higher than our aim, so we should aim at perfection.

WILD BILL'S BONES

Now that the furore occasioned by the removal, in the stealth of night, of the remains of Sitting Bull from North Dakota to South Dakota seems to have died down, with South Dakota evidently the final resting place of the Sioux medicine man will a ruckus over the burial place of James Butler "Wild Bill" Hickok next make the headlines?

Wild Bill is buried on top of a hill overlooking Deadwood, S. D., where he was slain by a character named Jack McCall, who shot Bill in the back of the head while he was playing poker in 1876. Thousands of tourists visit the grave of the frontiersman annually.

Now a resident of Abilene, Kans., where Hickok was marshal for a brief period, has written the mayor of Deadwood asking that "negotiations" be opened for the removal of Wild Bill's body to the Kansas town.

The net result of the project to date is that the Attorney General of South Dakota has written a letter to the Attorney

General of Kansas informing him the citizens of Deadwood would demand the National Guard to protect the Hickok grave.

In the removal of Sitting Bull's body from North Dakota to South Dakota, descendants of Sitting Bull gave their cooperation. Whether relatives of Hickok, still living at Troy Grove, Ill., where the plainsman was born and where the state of Illinois has erected a monument to his memory, would side with Abilene in its efforts to obtain the body is not known.

But there is little doubt that Deadwood would arise en masse to present this threat to one of its main tourist attractions.

LOCAL TAX PROBLEM

Local taxes have not received their merited attention in recent years because taxpayers have concentrated their gaze on mounting federal levies. But local taxes are high and going higher as government employees press for salary increases and other costs of government mount. School taxes, of course, are in the vanguard of local tax increases throughout the country.

Real estate taxes have become almost astronomical, and cities and states have resorted to levies of all sorts to bring in additional funds. State income taxes, state sales taxes, city wage taxes and city sales taxes have been imposed on a cast segment of the population.

Need for additional taxes has become especially acute in areas which have experienced great building activity since the war. Revenues from new homes and business buildings in such instances seem to be inadequate to provide government and school facilities.

SATURDAY, JULY 11 — Born today, you have some very definite ideas and are determined to carry them out to the letter. You believe that emotions should always be kept under strict control. Consequently, very few persons outside of your own family circle even guess how deeply emotional you are! You have many progressive ideas and are original in your approach to them. You may be misunderstood by those who cannot keep pace with your mental processes. This may evoke early criticism, but as time proves you to be right, your reputation for shrewdness and firm decision grows by leaps and bounds.

Your ideals are exceptionally high and sometimes you are not as quick in reaching them as you might hope. Yet, you are not one to be discouraged. If you miss the first time, you are just the one to "try, try again!" Ultimately, you gain all your objectives.

You are the type to believe that actions speak more loudly than words. Consequently, you keep your own counsel in important matters. But when you are ready to act, you act at once. This often gives

the impression of impulsiveness. Those who know you best realize that you have made careful plans well ahead of time and are just lying low, waiting for the proper moment to strike when the iron is hot! You men should do well in politics and could attain important rank in diplomacy, if you made it your career.

You women are sincere and affectionate — more inclined than anything else to devote your majorities which can leave a scar for

energies to running your homes with efficient precision. Yet you have so much personal charm that no one seems to sense that you are running things quite your own way!

To find what the stars have in store for tomorrow, select your birthday star and read the corresponding paragraph. Let your birthday star be your daily guide.

Sunday, July 12

CANCER (June 22-July 23) — This second day of rest and relaxation should have made you ready and fit to tackle a new job tomorrow.

LEO (July 24-Aug. 23) — Be on your guard against accidents, if you are driving in heavy traffic. Keep your eye out for the other fellow!

VIRGO (Aug. 24-Sept. 23) — Don't let yourself get too much sunburn, if you are at the beach. Overdoing it can be worse than none at all!

LIBRA (Sept. 24-Oct. 23) — If driving home by car, plan to get an early start homeward to avoid the late, heavy traffic.

SCORPIO (Oct. 24-Nov. 22) — You

SUNDAY, JULY 12 — Born today, you are one of the world's truly independent spirits. You care little what the rest of the world thinks.

You have your own ideas and intend to put them into action when the right time comes. You have a deep love for nature, love animals and have a philosophical bent in your nature. All this gives you a broad, comprehensive view of life. You have musical talents and should develop them at an early age. If you do not utilize them as a profession, you should cultivate them as a hobby for your own pleasure.

You are not as practical as you might be, for you are a day dreamer and one who builds castles in the air. You care little for material wealth and can be perfectly contented with the minimum of personal niceties, just so long as you are left alone to do what you want to do in your own way.

A marriage partner who can handle practical matters for you without giving the appearance of "running you" would probably be of great help. Left by yourself, you might invent a dozen things, but they won't never be commercialized unless someone with a better business head takes them in hand and promotes them. Once you have solved a problem to your own satisfaction, you'll forget about it and go on to something new and more interesting.

Your emotions are near the surface and unless you are on guard you may fall into romantic adventures.

Moonset 9:04 p.m.
First Quarter July 19

PROMINENT CONSTELLATIONS

Ariadne's Crown, high in south 9:14 p.m.
Scorpio, low in south 10:28 p.m.

VISIBLE PLANETS

Saturn, sets 12:18 a.m.
Venus, rises 3:40 a.m.
Jupiter, rises 3:50 a.m.

(Computed by Bailey R. Frank)

SUNDAY, JULY 12, 1953

Sunrise 5:40 a.m.
Sunset 8:29 p.m.
Moonset 9:31 p.m.

PROMINENT STAR

Regulus, principal star of the constellation, Leo, sets 10:00 p.m. (Next year at this time, Venus, now the brightest "star" in the morning sky, will be seen in Leo near Regulus.)

(Computed by Bailey R. Frank)

LIBRA (Sept. 24-Oct. 23)

Building your health is important just now. Forget about your work and just seek relaxing recreation.

TAURUS (Apr. 21-May 21)

Get out into the open again today. Wind up a refreshing week end in the country. Return relaxed.

GEMINI (May 22-June 21)

If this is your vacation, enjoy it to the full. Store up sunshine and fresh air for the whole year!

CANCER (June 22-July 23)

For you, there is a lot to be done. Do it efficiently.

LION (July 24-Aug. 23)

There are plenty of opportunities for you just now. Take advantage of them to make significant progress.

SCORPIO (Oct. 24-Nov. 22)

Don't let some super salesman talk you into buying something you have absolutely no use for!

SAGITTARIUS (Nov. 23-Dec. 22)

You have a lot to tackle ahead of you, so get up bright and early and make a "sun-up" start!

CAPRICORN (Dec. 23-Jan. 20)

Better not to depend upon memory alone when making an important decision. Make notes. Put it in writing.

MONDAY, JULY 13

CANCER (June 22-July 23)

Don't be critical of others today. If things don't go right, it might possibly be your own fault!

LEO (July 24-Aug. 23)

Pay no attention to gossip mongers. To listen — and believe — could bring you a lot of trouble later on.

VIRGO (Aug. 24-Sept. 23)

This

plans in advance and you can save time as well as money today. Follow your blue print carefully.

Salesmen Urged

To Boom 'Valley'

All industrial salesmen of the Greater Philadelphia area should

find a place in their selling campaigns for promoting the Delaware Valley. Theodore G. Heck, field representative of the Greater Philadelphia - Delaware - South Jersey Council, said today.

"Our 11 counties in three states are the best product in the world to sell," Heck told a meeting of salesmen in Philadelphia. "By promoting the Valley, not only are the best interests of individual firms advanced but progress moves ahead notch for the entire area."

GREETS ALUMNI IN S. A.

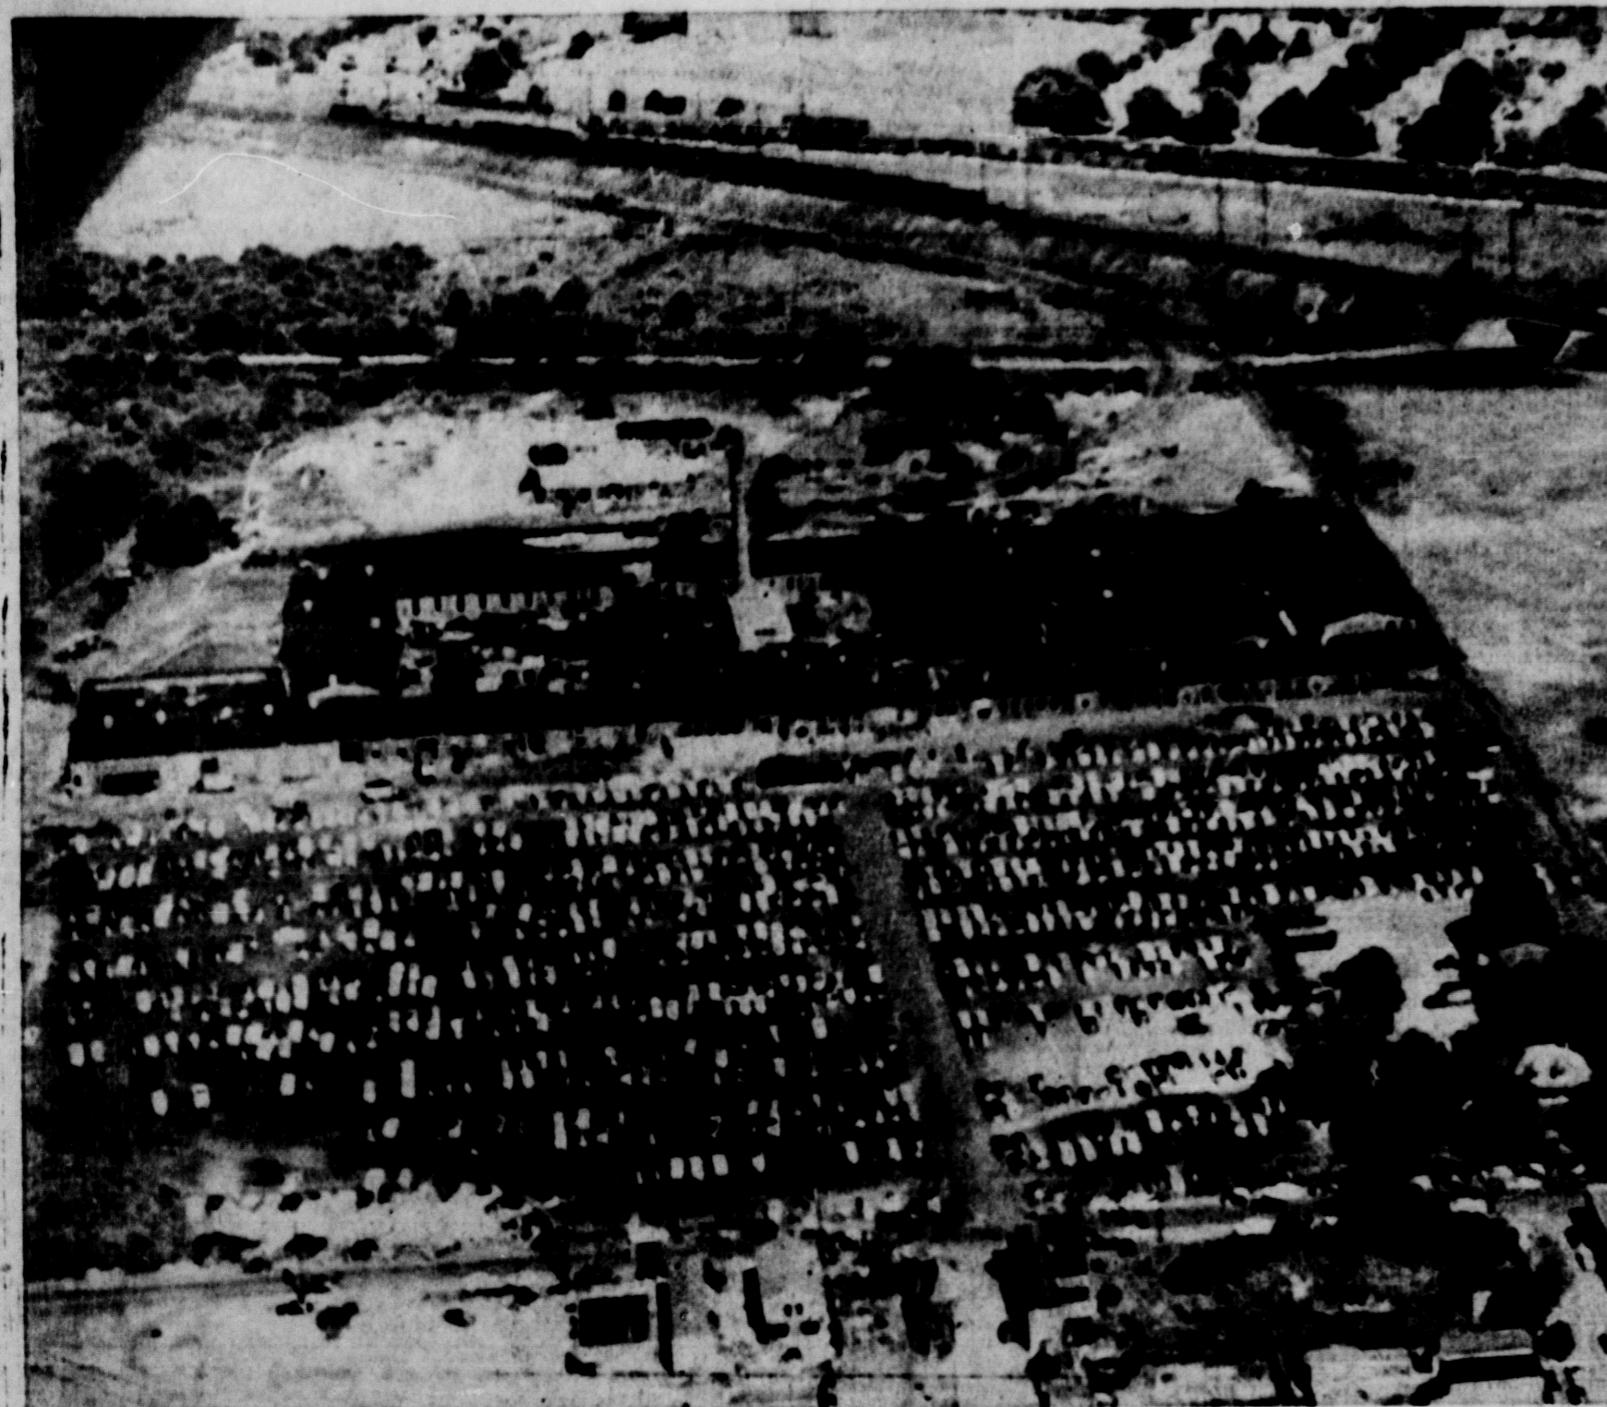

STATE COLLEGE — Alumni of the Pennsylvania State College are located in all parts of the world. When Dr. Milton S. Eisenhower, president of the College, visited Bogota, Columbia, as a part of his goodwill tour of South America, six Penn State alumni were on hand to greet him. Dr. Eisenhower is visiting South American republics as special representative of his brother, the President of the United States.

Shown above are the two huge parking lots of the Kaiser Metal Products Company in Bristol. The picture to the left is the cut at Beaver Dam road and New Route 13, the one on the right between Farragut avenue and Radcliffe street.

Literally thousands of cars pour over the highways in the morning and jam their way into a number of parking lots in this area—and in the afternoons fight their way out again.

A generation ago nothing of this sort was heard of. When Harriman Ship came to what is now the Harriman section of Bristol, back in the First World War, no one even dreamed of providing parking lots. About the same time, down river at Hog Island, acres of land were laid out for trolley-car terminals—but nothing for automobile parking.

In a dozen ways, this vast fleet of individually owned and operated vehicles has raised new and unsolved problems.

An incredibly large sum of cash and credit is tied up in these cars.

No known road system will accommodate the rivers of traffic they will produce in a few more years, if the increase continues.

Billions of dollars are being spent, scores of millions of them within fifty miles of Bristol, trying to release the traffic jam. But the flood of cars grows faster than the highway system.

Bristol itself has passed the saturation point for motor traffic. There are certain hours each day when the danger and delay of trying to drive from point to point in the Borough hardly seems worth the trouble.

What's the answer?

No one has come up with a simple remedy. Much time and a deal of money will have to go into the solution. Twenty years ago the traffic problem was something which bothered the big cities—places like New York and Philadelphia and Chicago.

When big numbers of families began moving out of the cities into the suburbs, and when industries set about "decentralizing" so as to get out of the crowded zones, everyone sighed with relief and thought the puzzle was answered.

But traffic congestion has spread to the smaller communities, and even into the rural areas—within recent years, one of the most alarming features of motor casualties has been the sensational jump in pedestrian deaths on farm-area roads.

Whatever the final answer may be, you can be certain that it will involve three elements—first, a "tougher" attitude towards the question of whether everyone has a right to use the roads as he chooses; second, much bigger and more expensive road systems than have yet been blue-printed; third, long-range planning for locating future growth along lines never before considered.

BIBLE THOUGHT FOR TODAY

Be ye holy for I am holy.—I Pe. 1:16.
Christ taught His Disciples to aim at perfection. Some fell far short, but Peter after touching the depth did really become a saint. We will not hit a mark higher than our aim, so we should aim at perfection.

WILD BILL'S BONES

Now that the furor occasioned by the removal, in the stealth of night, of the remains of Sitting Bull from North Dakota to South Dakota seems to have died down, with South Dakota evidently the final resting place of the Sioux medicine men will a ruckus over the burial place of James Butler "Wild Bill" Hickok next make the headlines?

Wild Bill is buried on top of a hill overlooking Deadwood, S. D., where he was slain by a character named Jack McCall, who shot Bill in the back of the head while he was playing poker in 1876. Thousands of tourists visit the grave of the frontiersman annually.

Now a resident of Abilene, Kans., where Hickok was marshal for a brief period, has written the mayor of Deadwood asking that "negotiations" be opened for the removal of Wild Bill's body to the Kansas town.

The net result of the project to date is that the Attorney General of South Dakota has written a letter to the Attorney

General of Kansas informing him the citizens of Deadwood would demand the National Guard to protect the Hickok grave.

In the removal of Sitting Bull's body from North Dakota to South Dakota, descendants of Sitting Bull gave their cooperation. Whether relatives of Hickok, still living at Troy Grove, Ill., where the plainsman was born and where the state of Illinois has erected a monument to his memory, would side with Abilene in its efforts to obtain the body is not known.

But there is little doubt that Deadwood would arise en masse to present this threat to one of its main tourist attractions.

LOCAL TAX PROBLEM

Local taxes have not received their merited attention in recent years because taxpayers have concentrated their gaze on mounting federal levies. But local taxes are high and going higher as government employees press for salary increases and other costs of government mount. School taxes, of course, are in the vanguard of local tax increases throughout the country.

Real estate taxes have become almost astronomical, and cities and states have resorted to levies of all sorts to bring in additional funds. State income taxes, state sales taxes, city wage taxes and city sales taxes have been imposed on a cast segment of the population.

Need for additional taxes has become especially acute in areas which have experienced great building activity since the war. Revenues from new homes and business buildings in such instances seem to be inadequate to provide government and school facilities.

SATURDAY, JULY 11 — Born today, you have some very definite ideas and are determined to carry them out to the letter. You believe that emotions should always be kept under strict control. Consequently, very few persons outside of your own family circle even guess how deeply emotional you are! You have many progressive ideas and are original in your approach to them. You may be misunderstood by those who cannot keep pace with your mental processes. This may evoke early criticism, but as time proves you to be right, your reputation for shrewdness and firm decision grows by leaps and bounds.

Your ideals are exceptionally high and sometimes you are not as quick in reaching them as you might hope. Yet, you are not one to be discouraged. If you miss the first time, you are just the one to "try, try again!" Ultimately, you gain all your objectives.

You are the type to believe that actions speak more loudly than words. Consequently, you keep your own counsel in important matters.

Now a resident of Abilene, Kans., where Hickok was marshal for a brief period, has written the mayor of Deadwood asking that "negotiations" be opened for the removal of Wild Bill's body to the Kansas town.

The net result of the project to date is that the Attorney General of South Dakota has written a letter to the Attorney

energies to running your homes with efficient precision. Yet you have so much personal charm that no one seems to sense that you are running things quite your own way!

To find what the stars have in store for tomorrow, select your birthday star and read the corresponding paragraph. Let your birthday star be your daily guide.

SUNDAY, JULY 12

CANCER (June 22-July 23)—This second day of rest and relaxation should have made you ready and fit to tackle a new job tomorrow.

LEO (July 24-Aug. 23)—Be on your guard against accidents, if you are driving in heavy traffic. Keep your eye out for the other fellow!

VIRGO (Aug. 24-Sept. 23)—Don't let yourself get too much sunburn, if you are at the beach. Overdoing it can be worse than none at all!

LIBRA (Sept. 24-Oct. 23)—If driving home by car, plan to get an early start homeward to avoid the late, heavy traffic.

SCORPIO (Oct. 24-Nov. 22)—You

may be careful driver, but others may be more reckless. Best to keep a watchful eye out.

SAGITTARIUS (Nov. 23-Dec. 22)

—Don't get involved in plans which mean traveling in heavy traffic. Pick your hours for driving.

CAPRICORN (Dec. 23-Jan. 20)

—Caution and a slow pace is much better than too much speed right now. You can avoid an accident.

SUNDAY, JULY 12

AQUARIUS (Jan. 21-Feb. 19)—A bright day can be healthful if you don't over-expose yourself to the elements. Take care.

PISCES (Feb. 20-Mar. 20)—Make the most of your weekend for rest and relaxation. You will feel fit and fine for the coming days.

ARIES (Mar. 21-Apr. 19)

—Building your health is important just now. Forget about your work and just seek relaxing recreation.

TAURUS (Apr. 21-May 21)—Get out into the open again today. Wind up a refreshing week end in the country. Return relaxed.

GEMINI (May 22-June 21)

—If this is your vacation, enjoy it to the full. Store up sunshine and fresh air for the whole year!

SUNDAY, JULY 12

BORN TODAY, YOU ARE ONE OF THE WORLD'S TRULY INDEPENDENT SPIRITS. You care little what the rest of the world thinks. You have your own ideas and intend to put them into action when the right time comes. You have a deep love for nature, love animals and have a philosophical bent in your nature. All this gives you a broad, comprehensive view of life. You have musical talents and should develop them at an early age. If you do not utilize them as a profession, you should cultivate them as a hobby for your own pleasure.

You are not as practical as you might be, for you are a day dreamer and one who builds castles in the air. You care little for material wealth and can be perfectly contented with the minimum of personal niceties, just so long as you are left alone to do what you want to do in your own way.

A marriage partner who can handle practical matters for you without giving the appearance of "running you" would probably be of great help. Left by yourself, you might invent a dozen things, but they would never be commercialized unless someone with a better business head takes them in hand and promotes them. Once you have solved a problem to your own satisfaction, you'll forget about it and go on to something new and more interesting.

VENUS (Aug. 24-Sept. 23)—This

life. Look carefully before you leap into marriage.

To find what the stars have in store for tomorrow, select your birthday star and read the corresponding paragraph. Let your birthday star be your daily guide.

MONDAY, JULY 13

CANCER (June 22-July 23)

—Don't be critical of others today. If things don't go right it might possibly be your own fault!

LEO (July 24-Aug. 23)—Pay no attention to gossip mongers. To listen—and believe—could bring you a lot of trouble later on.

VIRGO (Aug. 24-Sept. 23)—This

is the impression of impulsiveness. Those who know you best realize that you have made careful plans well ahead of time and are just lying low, waiting for the proper moment to strike when the iron is hot! You men should be the ones to "try, try again!" Ultimately, you gain all your objectives.

You are the type to believe that actions speak more loudly than words. Consequently, you keep your own counsel in important matters.

Now a resident of Abilene, Kans., where Hickok was marshal for a brief period, has written the mayor of Deadwood asking that "negotiations" be opened for the removal of Wild Bill's body to the Kansas town.

You are sincere and affectionate—more inclined than anything else to devote your majorities which can leave a scar for

SKIES OVER LOWER BUCKS COUNTY

SATURDAY, JULY 11, 1953

Sunrise	5:39 a.m.
Sunset	8:30 p.m.
Moonset	9:04 p.m.

First Quarter	July 19
---------------	---------

PROMINENT CONSTELLATIONS	
Ariadne's Crown, high in south	9:14 p.m.
Scorpio, low in south	10:28 p.m.

VISIBLE PLANETS	
Saturn, sets	12:18 a.m.
Venus, rises	3:40 a.m.
Jupiter, rises	3:58 a.m.

(Computed by Bailey R. Frank)

SUNDAY, JULY 12, 1953

Sunrise	5:40 a.m.
Sunset	8:29 p.m.
Moonset	9:34 p.m.

PROMINENT STAR	
Regulus, principal star of the constellation, Leo, sets—10:00 p.m. (Next year at this time, Venus, now the brightest "star" in the morning sky, will be seen in Leo near Regulus.)	

(Computed by Bailey R. Frank)

SUNRISE	5:40 a.m.
SUNSET	8:29 p.m.
MOONSET	9:34 p.m.

SUNDAY, JULY 12	1953
-----------------	------

PROMINENT STAR	
Regulus, principal star of the constellation, Leo, sets—10:00 p.m. (Next year at this time, Venus, now the brightest "star" in the morning sky, will be seen in Leo near Regulus.)	

(Computed by Bailey R. Frank)

SUNRISE	5:40 a.m.
